Summary

Innovative and detail-oriented Full Stack Developer with over 3 years of hands-on experience delivering top-quality web, mobile, and desktop applications for a diverse range of clients. Skilled in the latest frontend and backend technologies, I have successfully built and managed projects from concept to deployment, specializing in cross-platform development and robust, scalable solutions. Passionate about clean code, best practices, and crafting user-centric digital products for both startups and established clients.

Professional Experience

Full Stack Developer

Freelance

Developed and maintained various web applications and developed Mobile and Desktop Applications. Collaborated with clients to deliver tailored solutions that meet their specific business needs. Provided ongoing support and enhancements to existing projects.

Skills

Frontend

React · React Native · Next.js · Vue.js · Flutter · Electron.js · JavaFX · HTML5 · CSS3 · JavaScript (JS/TS)

Programming

Python · C/C++ · Java · Data Structures & Algorithms · Neural Networks · MASM (x86 Assembly)

Mobile & Desktop

Android Apps · iOS Apps · Cross-Platform Apps · Desktop Apps (Electron, JavaFX, .NET)

Backend

Node.js · Express.js · PHP · Laravel · Flask · Java · C# (.NET) · Kotlin · REST APIs

Databases

SQL · MySQL · PostgreSQL · MSSQL · MongoDB · Firebase

DevOps & Tools

Git · Docker · AWS · Kubernetes · Nginx · Apache

Projects

Electrical Engineering Project Manager (Freelance Project)

React Native · Firebase · Cross-Platform (Android & iOS)

- Designed and implemented a comprehensive project/task management app for an electrical engineering firm.
- Features include job assignment, in-app notifications (custom-built, no external services), PDF bill generation for completed tasks, and an admin dashboard.

Finance Assistant Website (Capital Core)

MERN Stack: React · Express · Node.js · MongoDB

- Developed a personal finance management platform, a university project.
- Features: expense tracking, budget setting, automated reports, visual analytics, receipt uploads, and motivational finance tips.
- Targeted towards students and hostel residents, offering a user-friendly alternative to traditional finance tracking.

CRM Solution a University Project (Freelance Project)

C# · .NET · Windows Forms · PostgreSQL

- Built a scalable CRM desktop application with advanced design patterns, UML diagrams, and ERDs.
- Managed customer information, tracked interactions, and streamlined business processes.
- Emphasized maintainability, modularity, and professional software architecture.

Hardware Ecommerce Store (Demo Project)

React · Firebase · E-commerce Web App

- Created an e-commerce platform for hardware products.
- Implemented secure authentication, real-time inventory updates, and a responsive UI.
- Leveraged Firebase for backend, authentication, and cloud storage.

Project Management Website (Freelance Project)

Vue.js · Laravel · PostgreSQL · REST API

- Developed a collaborative project/task management tool featuring team collaboration, reporting, and real-time updates.
- Integrated PostgreSQL for reliable data storage and REST APIs for seamless communication between frontend and backend.
- It was a University Project for a client.

Website for Reading Books

React · Node.js · Express.js · MSSQL

- Built a platform connecting authors and readers, supporting content creation, management, and social interaction.
- Developed secure authentication, role-based access, and a responsive design.
- Ensured reliable server-side logic and efficient data management.

Education

FAST NUCES (National University of Computing and Emerging Sciences)

present

BS Computer Science

Islamabad, Pakistan

Relevant Courses:-

Web Programming, Data Structures and Algorithms, Operating Systems, Databases, Software Engineering, Artificial Intelligence and Machine Learning, Software for Mobile Devices, Software Design

Certificates

- React - Udemy
- Express JS - Coursera

Languages

English
Fluent

Urdu
Native/Bilingual
