SUMMARY

Full-Stack AI Developer experienced in end-to-end Development and Deployment, specializing in Frontend, Backend, Cross-Platform, and AI Integration with hands-on MLOps and DevOps practices.

EDUCATION

FAST NUCES (National University of Computing and Emerging Sciences) - Islamabad

B.S. Computer Science

WORK EXPERIENCE

SoftBuilds - Junior Software Engineer (Contract Based)

September 2025 – January 2026

G-11, Islamabad, Pakistan

- Authored and executed test cases for **RAG-based LLMs**, evaluating response quality and benchmarking retrieval accuracy across model outputs.
- Conducted adversarial prompt testing across multiple LLM models, identifying and documenting 50+ failure modes and hallucination patterns in production pipelines.
- Assisted with **MLOps** workflows by integrating models via **Fast API** and building automated pipelines to support QA processes.

MicroAgility - Web Developer Intern

June 2024 – September 2024

Islamabad, Pakistan

PROJECTS

Smart Interview and Skill Gap Analyzer - React · Flask · PostgreSQL · SBERT · Whisper · EfficientNetB2

- **Architected an AI-driven** interview platform that automates candidate assessments, evaluates situational judgment scenarios, and delivers skill gap analyses to help companies make faster, data-backed hiring decisions.
- Trained EfficientNetB2 on 148K FER dataset images for facial emotion and composure detection, achieving 74% accuracy.
- Computed confidence and clarity scores using mathematical models derived from acoustic features via OpenSmile.
- Transcribed candidate speech using OpenAI Whisper to enable downstream NLP-based evaluation across modules.
- Scored professionalism through SBERT semantic analysis, vocabulary profiling, and slang detection using curated word lists.
- Evaluated logical thinking by passing candidate responses to Gemini API for structured reasoning assessment.
- Assessed maturity and adaptability via AI-generated Situational Judgement Tests using Gemini and semantic analysis.

Electrical Engineering Project Manager - React Native · Firebase · Cross-Platform (Android & iOS)

- Streamlined project workflows for firm through comprehensive task management solution, reducing coordination time.
- Enhanced billing efficiency with computerized PDF generation and custom notifications, improving cash flow.
- Enabled real-time project updates across devices for field teams

Finance Assistant Website - MERN Stack: React · Express · Node.js · MongoDB

[View Project](#)

- Empowered students with intuitive expense tracking and systematized budgeting tools for financial literacy. Increased engagement through visual analytics and motivational content tailored for young adults.
- Delivered cost-effective alternative to premium finance apps for student budgets

SKILLS

Frontend: React, Next.js, React Native, Flutter

Backend: Node.js, Express.js, Flask, .NET (C#), JAVA, Kotlin, Laravel and Fast API

AI/ML: Python, SBERT, Whisper, NLP, Pytorch, TensorFlow,

DevOps: AWS, Docker, Kubernetes, CI/CD, Git

Databases: SQL, MySQL, PostgreSQL, MSSQL, MongoDB, Firebase

Certificates

Amazon Web Services Cloud Practitioner

Alison

Meta Android Developer

Professional Certificate (Coursera)

Node.js, Express, MongoDB & More: The Complete Bootcamp

by Jonas Schmedtmann (Udemy)
