SUMMARY

Full-Stack Developer experienced in Website, Mobile and Desktop development, specialized in Frontend, Backend Web development and Cross-Platform development.

EDUCATION

FAST NUCES (National University of Computing and Emerging Sciences)

BS Computer Science

Relevant Courses

Web Programming, Data Structures and Algorithms, Operating Systems, Databases, Software Engineering, Artificial Intelligence and Machine Learning, Software for Mobile Devices, Software Design

EXPERIENCE

Web Developer Intern

MicroAgility — Islamabad (Remote/Onsite) | Jun–Aug 2024

- Assisted in MEAN/MERN web app features
- Collaborated with senior devs using Git, code reviews
- Wrote unit tests and documentation

PROJECTS

Electrical Engineering Project Manager

React Native · Firebase · Cross-Platform (Android & iOS)

- Designed and implemented a comprehensive project/task management app for an electrical engineering firm.
- Features include job assignment, in-app notifications (custom-built, no external services), PDF bill generation for completed tasks, and an admin dashboard.

Finance Assistant Website

[View Project](#)

MERN Stack: React · Express · Node.js · MongoDB

- Developed a personal finance management platform, a university project.
- Features: expense tracking, budget setting, automated reports, visual analytics, receipt uploads, and motivational finance tips.
- Targeted towards students and hostel residents, offering a user-friendly alternative to traditional finance tracking.

CRM Solution a University Project

C# · .NET · Windows Forms · PostgreSQL

- Built a scalable CRM desktop application with advanced design patterns, UML diagrams, and ERDs.
- Managed customer information, tracked interactions, and streamlined business processes.
- Emphasized maintainability, modularity, and professional software architecture.

Hardware Ecommerce Store (Demo Project)

[View Project](#)

React · Firebase · E-commerce Web App

- Created an e-commerce platform for hardware products.
- Implemented secure authentication, real-time inventory updates, and a responsive UI.
- Leveraged Firebase for backend, authentication, and cloud storage.

Website for Reading Books

[View Project](#)

React · Node.js · Express.js · MSSQL

- Built a platform connecting authors and readers, supporting content creation, management, and social interaction. Developed secure authentication, role-based access, and a responsive design.
- Ensured reliable server-side logic and efficient data management.

Social Media App (ConnectMe)

[View Project](#)

Kotlin · PHP · MySQL · Apache · Android

- Created a social media-style Android app built with Kotlin, MySQL, and PHP APIs.
- Featuring posts, stories, calls, messaging, and a follow system.

SKILLS

Frontend: React, React Native, Next.js, Vue.js, Flutter, Electron.js, JavaFX, HTML5, CSS3, JavaScript (JS/TS)

Backend: Node.js, Express.js, PHP, Laravel, Flask, Java, C# (.NET), Kotlin, REST APIs

Programming: Python, C/C++, Java, Data Structures & Algorithms, Neural Networks, MASM (x86 Assembly)

Databases: SQL, MySQL, PostgreSQL, MSSQL, MongoDB, Firebase

DevOps & Tools: Git, Docker, AWS, Kubernetes, Nginx, Apache, Bitbucket

CERTIFICATES

Full-Stack Web Development with React

Meta Android Developer

Node.js, Express, MongoDB & More: The Complete Bootcamp

Hong Kong University (Coursera)
Professional Certificate (Coursera)
by Jonas Schmedtmann (Udemy)
